

Protection Fire Standard Review Consultation

1. Introduction

Welcome to the consultation for the review of the [Protection Fire Standard](#)

The Protection Fire Standard was published back in September 2021. Since its publication, the Fire Standards Board have developed a total of [nineteen Fire Standards](#). The review of this standard was completed by a group of practitioners from across Fire and Rescue Services within England, and supported by Dave Russel, Chief Fire Officer and NFCC Protection Committee Chair, and Justin Sharp, NFCC Interim Head of Protection. The Fire Standards Board have committed to the regular review of published Fire Standards to ensure that they remain appropriate for the benefit of the sector.

This consultation seeks to gather views about the proposed amendments to Protection Fire Standard as well as the impact on those organisations who will be expected to align to them. Some questions may only be relevant if you work for a fire and rescue service within England.

There is a save and continue function that can be used throughout the consultation so that you can return to your response later and pick up where you left off. If you want to review the questions in advance of completion, you can view this pdf version: [PFS Consultation Questions](#)

If you have any questions about this consultation, please contact the [Fire Standards team](#). Many thanks for taking the time to respond, your feedback is appreciated.

This consultation will close end of the day, **Thursday 23 October 2025**.

1. Please select your Fire and Rescue Service:

☐ I am not part of a Fire and Rescue Service

☐ Avon

☐ Bedfordshire

☐ Buckinghamshire

☐ Cambridgeshire
