

Title of Standard	Emergency Response Driving		
Business Area/Capability	Response		
Sponsoring NFCC Committee	NFCC Operations Committee		
Date of approval	TBC	Date of Issue	TBC
Reference Number	TBC	Review Date	TBC
Desired outcomes			
<p>For all employees who drive using blue lights and claim any legal exemptions for a fire and rescue service purpose, to have been trained in a consistent way so that they drive safely, in line with the requirements of their role and in accordance with relevant legislation.</p> <p>For all response driver training instructors to be qualified in accordance with the relevant legislation.</p>			
What is required to meet the standard			
<p>A fire and rescue service must:</p> <ul style="list-style-type: none"> a) Comply with legislation and guidance that applies to emergency response driving <p>A fire and rescue service should:</p> <ul style="list-style-type: none"> a) Adopt and align their emergency response driver training to the <i>NFCC Emergency Response Driver and Instructor Framework</i> b) Adopt and align their emergency response driver instructor training to the <i>NFCC Emergency Response Driver and Instructor Framework</i> c) Ensure that records of driver competency and refresher training are kept and maintained d) Ensure that their driver training provision is periodically independently quality assured e) Ensure that both managers who are responsible for emergency response driving and those working as driving instructors, contribute to the continual improvement of driver training standards by communicating, sharing learning and experiences with the NFCC network of fire and rescue service driving instructors and centres through: <ul style="list-style-type: none"> i. The NFCC Workplace online forum ii. Supporting the national Driver Training Advisory Group (DTAG) through regional structures iii. Attendance at relevant national events and conferences 			

Legal requirements or mandatory duties

- [Road Traffic Regulation Act](#) (specifically Section 87)
- [Road Traffic Act](#)
- [Road Safety Act 2006 - Section 19 *Not yet enacted*](#)
- [The Road Vehicle \(Construction & Use\) Regulations](#)
- [Motorways Traffic \(England & Wales\) Regulations](#)
- [The Traffic Signs Regulations and General Directions](#)
- [High Speed Competency & Training Codes of Practice](#)

Expected benefits of the achieving the Fire Standard

1. Improved road safety for the public and employees evidenced by:
 - a. Reduction in the number of low and high-speed collisions when responding
 - b. Reduction in injuries
2. Defined route to competency by alignment to the framework and improved driver safety
3. Compliance with related legislation, guidance and DfT Codes of Practice which supports:
 - a. Interoperability through collaboration of blue light resources
 - b. Opportunity for intra-service driver training provision
 - c. More efficient transfer of appropriately trained and competent personnel between services

Linked qualifications, accreditations or Fire Standards

National Occupational Standard – FF9

[Consider what other standards this may be linked to – ethics, behaviours, service value. Can only be completed when further Standards are approved]
